WHO WE ARE

We are self-starters with a willingness to take calculated risks & find creative solutions to our client's needs.

Operating in Australia since 2002, the Avatar team has over 80 years of experience within the general insurance industry and over 50 years in the Life Science sector; with a focus on innovation-based companies, we have built a knowledge database & network to provide risk transfer solutions.

Our comprehensive understanding of our clients enable us to tailor policies by evaluating the appropriate type & level of insurance that matches their risk profile.

We work passionately to retain the entrepreneurial spirit that created our firm & encourage all our staff to act as leaders.

WHO WE SERVE

Our clients are innovators with unique products & businesses, working in ambitious & challenging enterprises. They require progressive specialist partners for their evolving business needs, & deserve excellence & innovation.

We strive to create the best client-centred program designs in the market, & our passion for our core purpose gives us the courage to reach beyond our comfort zone to try new & unconventional ideas.

“Avatar Brokers have great knowledge of the industry, & the team goes out of its way to understand the client's business & needs & provide the right solutions for those.”
